8 Series

6 Series WB

The Body Series by Delivery Concepts features lightweight, insulated fiberglass bodies with frozen, refrigerated, heated, and ambient compartment options, available in any combination. Models are available in 6-foot, 8-foot, and 11-foot lengths, making the Body Series a versatile temperature-controlled delivery solution for small businesses and large enterprises alike.

As a chassis-neutral upfitter, Delivery Concepts can convert most any pick up truck, commercial van cab chassis or van cutaway chassis into a temperature-controlled delivery vehicle. All fiberglass bodies meet local and state Board of Health temperature requirements.

Quick Facts
